

Clame-collier 1 câble 75-100 mm

Internal Reference: ST75100

suitable for fastening a single cable with one or more low-, medium- or high-voltage conductors

material: glass-fiber reinforced polyamide, bending strength 210 N/mm², tensile strength 120 N/mm².

resistant to UV rays, salt water, ozone, oils and alkalis

self-extinguishing to UL94-V-0 and DIN 5510-2:2009

coefficient of thermal expansion: +0.01%/+10°C

temperature range: -50°C to +120°C stable, +220°C peak

stainless steel fasteners suitable for almost any assembly are available on request

halogen-free

Characteristics

Height	110 mm	D	14.5 mm
B	80 mm	Cable Diameter	75-100 mm
